Cholera cases in Delhi

146. MISS SAROJ KHAPARDE: Will the Minister of HEALTH AND FAMILY WELFARE be pleased to state:

(a) whether it is a fact that the cholera cases have recently been going up in Delhi; and

(b) if so, what are the details thereof and what preventive steps Government have taken in this regard?

THE MINISTER OF STATE IN THE MINISTRY OF HEALTH AND FAMILY WELFARE (SHRIMATI D. K. THARA DEVI): (a) and (b) Though the number of Cholera cases reported so far in Delhi during 1991 is slightly higher than the number of cases reported during the same period last year i.e. 1990, it cannot be said that Cholera cases have recently gone up; as because number of cases reported in the month of June this year i.e. 99, is less than the number of cases reported in May, 1991 i.e 117, which indicates a declining trend.

The Government have taken the following preventive steps:

—Maximum efforts are being made to provide safe drinking water through piped water supply.

—Unifit hand pumps are being indentified for rectification of defects.
